**To consider:**

You have until **2025-04-24 23:59** to complete your payment **via Online Bank Transfer**. We recommend making a NIBSS Instant Payment (NIP), offered by most banks, as other bank transfers can take longer to be received. To ensure your payment can be processed successfully, transfer the exact amount, otherwise your payment will be rejected. If the transaction is above the limit established by your bank for online transfers, reach out to your bank to increase your limit; if your bank is unable to raise your limit, create a new Flywire Payment Request for an amount that aligns with your bank's limits.
